

Ideation Phase

Brainstorm&Idea Prioritization

Date	16 October 2022
Team ID	PNT2022TMID22069
Project Name	Early Detection of Chronic Kidney Disease using Machine Learning
Maximum Marks	4 Marks

Brainstorm&Idea Prioritization :

The ideation phase process is shown in six panels:

- Brainstorm & Idea prioritization:** A slide with a title and instructions to use the template to brainstorm ideas and prioritize them.
- Define your problem statement:** A slide with a title and instructions to define the problem statement.
- Brainstorm:** A slide with a title and instructions to brainstorm ideas. It includes a diagram showing the flow from problem statement to brainstorming to idea collection.
- Group ideas:** A slide with a title and instructions to group ideas. It includes a diagram showing the flow from idea collection to grouping to idea prioritization.
- Prioritize:** A slide with a title and instructions to prioritize ideas. It includes a diagram showing the flow from idea prioritization to prioritization to idea selection.
- Graph:** A graph showing the prioritization of ideas. The Y-axis is labeled 'Importance' and the X-axis is labeled 'Feasibility'. The graph shows several ideas plotted as points, with some points highlighted in yellow and others in pink. A curved line separates the high-importance, high-feasibility ideas from the others.
